

Red Oak Flooring

Durable, versatile, and built to last.

Red Oak is a widely used American flooring hardwood with warm tones, open grain, and excellent workability. It brings familiar character to residential and commercial interiors.

Construction	¾" solid, unfinished wood
Widths	2¼", 3", 4", 5", 6", 7", 8"
Lengths	Random up to 10'; subject to material availability and milling yield
Grades	Select, #1 Common, #2 Common, Character / Rustic

CUTS & APPEARANCE

Plain-sawn: open grain and classic cathedral patterns.

Rift-sawn: straighter grain for a more uniform appearance.

Quarter-sawn: distinctive ray fleck; confirm cut availability with our team.

MILLING & QUALITY

Tongue-and-groove profiles, stress-relief grooves, kiln-dried material, and careful grading. End-matching is standard on most grades and widths; confirm project requirements. Our certified hardwood flooring is produced under the NWFA/NOFMA Mill Quality Assurance Program.

PLAN YOUR PROJECT

For a more neutral color palette, consider White Oak. For greater hardness and stronger natural contrast, consider Hickory. Request samples to compare the actual material.

Confirm current supply, grade, width, quantity, and timing with our team before ordering. Flooring is supplied unfinished; installation and finishing should be planned with your flooring professional.
