

Rift & Quartered White Oak Flooring

Straight grain and ray fleck for architectural interiors.

Rift & Quartered White Oak combines the clean, linear grain of rift-sawn boards with the distinctive ray fleck of quarter-sawn material. The result is a refined floor with natural variety and a strong architectural character.

Construction	¾" solid, unfinished wood
Widths	2¼", 3", 4", 5", 6", 7", 8"
Lengths	Random up to 10'; subject to material availability and milling yield
Grades	Select, Character

CUTS & APPEARANCE

Rift-sawn: straight grain with minimal ray fleck.

Quarter-sawn: visible ray fleck and a distinctive, structured appearance.

Rift & Quartered: a natural blend of the two cuts. Confirm the preferred mix with our team.

MILLING & QUALITY

Tongue-and-groove profiles, stress-relief grooves, kiln-dried material, and careful grading. End-matching is standard on most grades and widths; confirm project requirements. Our certified hardwood flooring is produced under the NWFA/NOFMA Mill Quality Assurance Program.

PLAN YOUR PROJECT

Rift & Quartered is a cut selection, not a separate species or a promise of identical boards. Samples help establish the expected grain mix, color range, and grade.

Confirm current supply, grade, width, quantity, and timing with our team before ordering. Flooring is supplied unfinished; installation and finishing should be planned with your flooring professional.
